Donate to Pay an Adoption Fee for someone!

If your home is already full of whiskers & paws and you simply can't adopt right now but still want to help that special cat or dog who has captured your heart, you can donate to pay that animal's adoption fee for someone!

Cats/Kittens – just \$95, Dogs/Puppies – just \$185
(*promotional fees may exist from time to time*)

When you can make a donation in the amount of the current Adoption Fee, we'll add a 'starburst' to an animal's 'Waiting to be Adopted' Photo & to their kennel, to let potential adopters know that the adoption fee has been paid for them! Wow!

This 'donated adoption fee' is a bonus which often encourages added interest in long-term residents who are simply being over-looked because they are a little older, or their fur is black, or they are no longer a puppy or kitten, etc. Knowing a cat or dog in our adoption area no longer has an adoption fee, will sometimes put those 'hard to adopt' candidates a little further up the list! Donating the adoption fee often helps an animal get adopted more quickly! And you'll feel 'amazing' knowing you played a part in rehoming a shelter animal!

Rest assured, that even though you have donated the adoption fee, we still require that the Adoption Application is completed as usual, and will ensure we choose the 'best match' adopter for the animal as always, including a financial commitment for the life of the pet.

We will take extra care to ensure adopters are reminded that although the adoption fee has been paid for them by a generous donor, it's a small portion of the financial commitment & responsibility required to own a pet.
